

Tour Golf Fitness with Steve Jacobson - exclusive to PGA West

February 26, 2009

As our demographics have continued to evolve over the past few years, we knew we would have to take the lead in bringing a golf specific fitness program into our list of amenities for our members and guests. Advance Golf and Fitness brings not only this component, but it is regarded as the best training for all levels of golfers, to reach their maximum potential. We are please and very excited to be able to have and offer this new component and by locating the program at the Newly Remodeled Tournament Clubhouse, home of the PGA Tour Finals, it is a perfect fit.
